FT UI Kenang 100 Tahun Bapak Beton Indonesia(Sumber: Detik.com, sabtu 2 Agustus 2008) Bagi sebagian orang tentu nama ini masih sangat asing, tapi bagi dunia pendidikan khususnya di bidang teknik, nama ini tentu sangat diingat, Rooseno. Beliau adalah sosok yang menjadi cikal bakal berdirinya Fakultas Teknik Universitas Indonesia dan Fakultas Teknik Universitas Gadjah Mada.

Untuk mengenang dan menghormati pengabdian beliau, dilakukan serangkaian acara di Gedung Engineering Center, Fakultas Teknik, UI, Depok, Sabtu (2/8/2008). Acara dibuka dengan sambutan dari, Rektor Universitas Indonesia Gumilar R Soemantri.

Dilanjutkan dengan peresmian patung Rooseno dan penandatanganan prasasti gedung laboratorium Rooseno, yang disaksikan oleh anak, cucu dan cicit Rooseno.

"Kita sangat berterima kasih atas jasa yang telah diberikan beliau kepada kita khususnya fakultas Teknik UI," ujar Gumilar R Soemantri dalam acara itu.

Rooseno adalah Insinyur lulusan THS Bandung(ITB), beliau satu-satunya pribumi diantara 12 orang yang lulus saat itu pada tahun 1932. Pada tahun 1950-an, Rooseno bergabung dengan Partai Indonesia Raya, dia lalu didaulat sebagai Menteri Pekerjaan Umum, Menteri Perhubungan dan Menteri Ekonomi.

Tidak heran hingga saat ini, beliau masih tetap dikenang karena sumbangsih yang telah beliau berikan bagi negeri ini.

Rooseno dijuluki bapak Beton Indonesia. Ia adalah pria yang pertama kali menulis buku ajar beton dalam bahasa Indonesia pada 1954. Dia juga memperkenalkan beton praktekan lewat kuliahnya di ITB pada tahun 1949.
